

Technical Drawings A

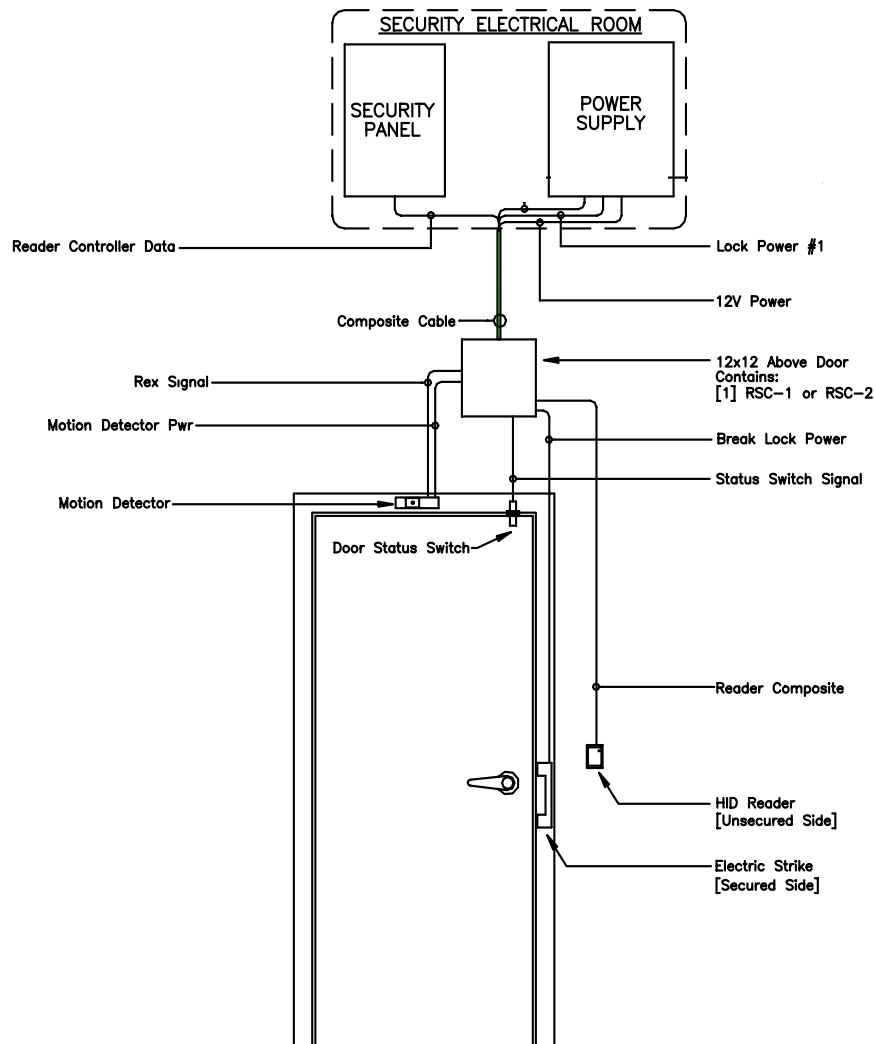

In This Chapter

- ✓ Door Drawings
- ✓ Board Dimension Drawings
- ✓ Enclosure Drawings

This section provides technical illustrations to help implement a variety of field applications. It includes several common field applications as well as the physical dimensions of the ACRE hardware.

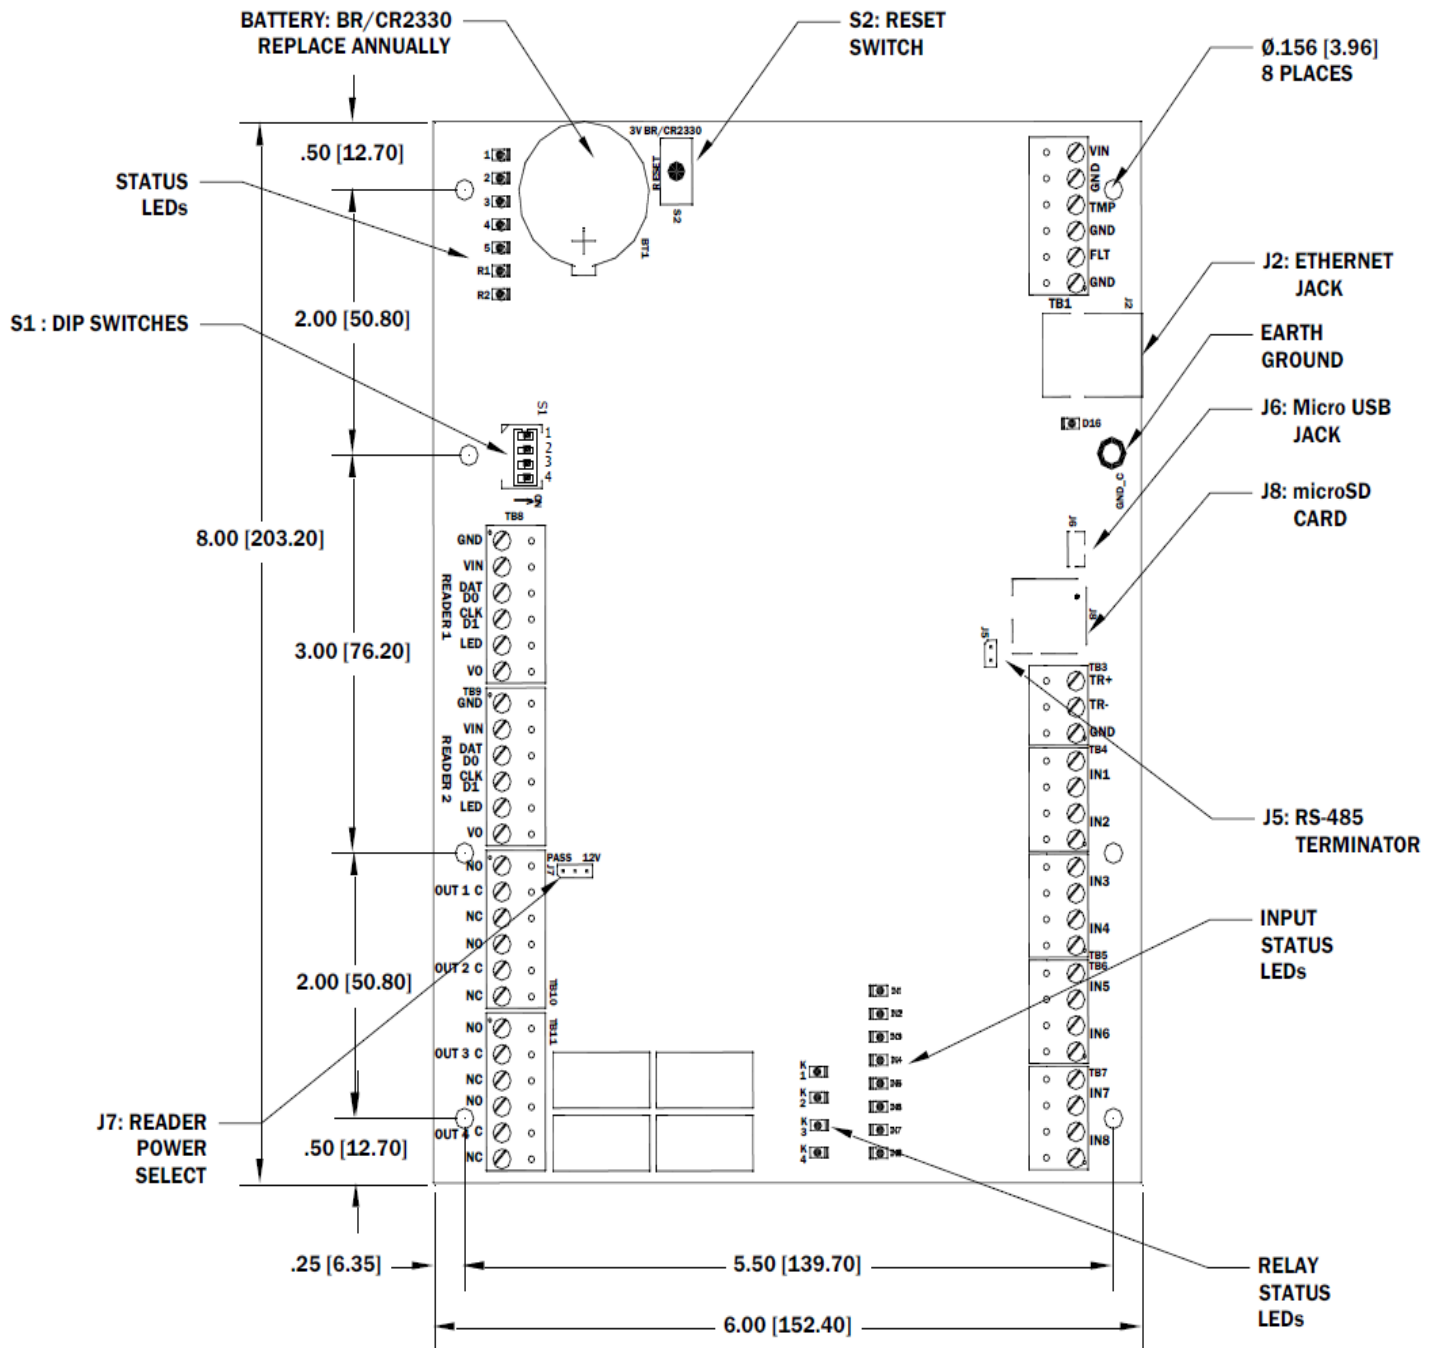

A key is provided to open all ACRE or Life Safety Power enclosures. All enclosures have a Grade 1 IP4X and IK04 rating. Enclosures for the MR51e, MR62e, and LP1501 are opened by pressing down on the latch on top of the enclosure and pressing gently into the slot with a screwdriver (included when purchasing either the MR51e, MR62e, or LP1501) or a small tool into the slot on at the bottom of the enclosure.

Typical Single Reader Door with MR Panel Above Door
